Dear Eric:

I am enclosing photocopy of a couple of Colonial Penna. piece I recently came across. While your first book does not generally cover the printed form type, though it might be of interest to you, as the date is the same as the 6/1/1780 issue listed in the book. Also, the handwritten warrant, seems to be payment for, I guess, towards the 1777 issue shown in the book. It appears Wm. Thorne supervised the printing of these notes (200,000 pound issue) by John Dunlap, or at least it looks that way to me. Anyway, the information, may be of help to you in some manner.

Best regards,

Harry G. Wigington
